The Edinburgh Review,

The Foreign Quarterly Review,

The Westminster Review,

AND

Blackwood's Edinburgh Magazine

—o—

THE above Periodicals are reprinted in New York, immediately on their arrival by the British steamers, in a beautiful clear type, on fine white paper, and are faithful copies of the originals —BLACKWOOD'S MAGAZINE being an exact fac simile of the Edinburgh edition

The wide-spread fame of these splendid Periodicals renders it needless to say much in their praise As literary organs, they stand far in advance of any works of a similar stamp now published while the political complexion of each is marked by a dignity, candor and forbearance not often found in works of a party character

They embrace the views of the three great parties in England—Whig, Tory, and Radical—'Blackwood' and the "London Quarterly" are Tory, the "Edinburgh Review" Whig and the 'Westminster," Radical The 'Foreign Quarterly' is purely literary, being devoted principally to criticisms on foreign Continental Works

The prices of the RE PRINTS are less than one third of those of the foreign copies and while they are equally well got up, they afford all that advantage to the American over the English reader

CONCENTRATED

Sherry Wine Bitters.

THE Proprietor of this Medicine offers to the public the result of an extensive practice and a thorough investigation of the laws which govern the human system,

It cannot be denied by those who have become acquainted with the singular virtues of these Bitters that they possess a pre eminence over all others now in use, for the diseases which they profess to cure

It is a well known fact, that most diseases arise from a derangement of the Stomach and Bowels, in youthful adult and declining life

The extensive sympathies which subsist between these and every other part of the living body are the foundation of nervous diseases of all kinds Irregular Appetite, Langour Drowsiness Wandering Pains Headache Lowness of Spirits &c

And these in their turn give birth to Dyspepsia, Palpitation of the Heart, Shortness of Breath, Jaundice Piles Fevers Inflammatory Humors Coughs and a host of diseases which embitter life and poison all sources of enjoyment

The distinguished character of these Bitters is most striking, their operation being more or less powerful according to the violence of the disease When used in appropriate quantity, in cases of slight derangement of the Stomache and Bowels caused by costiveness or a slight bilious difficulty and the like whose nature needs assistance to prevent more serious consequences, they will be scarcely felt

On the contrary in obstinate cases, they frequently operate more powerfully, causing two or three evacuations daily, until the circulating fluid becomes purified This accomplished, they act on the system in connection with our food each receiving mutual assistance until the constitution is restored to a state of health and renewed vigor

MORE PROOFS!

"The cry is still, they come!"

EVERY mail brings tidings of their success — From East to the remotest West—from Canada on the North to Mexico and the West Indies on the South—all are unanimous in their praise — Of a medicine so universally known and esteemed as

WRIGHT'S INDIAN VEGETABLE PILLS,

It is hardly necessary to speak in detail At no period in its history has the reputation of that medicine stood higher and we may say that no reputation is likely to be more enduring Adapted to all constitutions to every form of disease and to all climates Wright's Indian Vegetable Pills are above every other medicine fitted for the use of man under whatever circumstances he may be placed At sea or on land, at home or abroad, in summer's heat and winter's cold with a common regard to the conditions of health and with Wright's Indian Vegetable Pills at hand there is no excuse for being sick unless the constitution be utterly irreclaimable

As our object is to state where the genuine medicine can be obtained rather than to give it an extended notice, which our limits forbid, we shall merely subjoin one or two of the numerous testimonials that have just come to hand Hundreds of the same kind might be added, but we are sure the public will save us the trouble of arranging them

SPECIAL NOTICE.

In consequence of the passage of an act by the recent Legislature of Maine, unjustly requiring the publication of the recipes of all proprietary medicines, after the first of January next, the public would do well to PURCHASE IMMEDIATELY AN AMPLE SUPPLY of the above celebrated medicine, as it MAY NOT BE LONG that the opportunity will be afforded in the State of Maine — The sinister intentions of designing men will thus for a time be defeated The medicine if kept dry, will be good for years That act we pronounce most *unjust*, because it requires a valuable secret to be put into the hands of one's *professional enemies* This no one will do, and thus the poor man will be compelled to pay for the visits of a doctor, instead of doctoring himself, as he now does at a small expense

THURSDAY, OCTOBER 29, 1846.

Instructing a Steamboat Captain.

It happened, not long since, as it will sometimes happen, that passengers from the great city, men from their snug offices and cozy counting rooms, step into cars and move along beautifully comfortable and in high hopes of speedily reaching their destination—it may be New York or it may be Bangor. The night comes on rather dark, but the cars are lighted and the engine has a brilliant lantern—the wind is rather fresh, but the windows are closed and all seems tolerably calm.

While this is going on upon the land, the steamboat has been buffeting a hard and an increasing sea. The heavens scowl with fierceness, and a bad night for those upon the ocean appears inevitable. The boat has made her landing, been washed down and set in order, and quiet has been restored.

At length the cars stop and the passengers are transferred to the steamboat.

"Well captain how soon do you start?"

"Rather uncertain, sir,—the weather is very rough outside."

"But captain, now all are on board, you mean to start soon, don't you?"

"Really it is quite uncertain sir—we should make slow progress and probably should have to return in a few hours if we attempted it—I think we had better remain here quietly until day light."

"Why captain, it is not so very dark—there is a moon."—"Yes, and I have often known it to blow harder than it does now."—"We had a very comfortable passage on the road."—"It is very important for me to be there, my wife will be so anxious."—"Captain, come I wish you would start and put us through if it is a little rough."

"Gentlemen, I should be extremely glad to accommodate you all, but you may depend upon it, it is rough outside. It is sometimes better to be a little too slow than too fast."

"Well, captain, is it not also sometimes well to be a little fast as well as slow?"

"Perhaps so, sir."

The captain turns off, he generally follows his own counsels, but he now resolves, the voice of his passengers being so earnest and so unanimously against him, to give them an opportunity to change their minds. The orders are given to get up steam, and soon the boat, to the delight of the passengers, who now think they have gained a point, is gliding swiftly down the harbor in quiet and apparent prosperity. She soon strikes out of the harbor and commences laboring with the rough sea that dash her in fury! The wind howls fiercely. The thick black mist penetrates every where. Sea sickness has suddenly seized most of the passengers. Fear soon gets possession of them and they begin to implore most earnestly for a return.

To pursue the voyage might be attended with risk and certainly would be uncomfortable to all, and the commander at length, to the joy of all, returns to the snug harbor he had left. Two hours experiment having satisfied the passengers that it is not always best to instruct a steamboat captain.

COURT COURIER.

Supreme Judicial Court.

On account of the absence of Judge Shepley who was to hold the Court for the present term the Court was adjourned by the Sheriff, until yesterday.

Yesterday morning the Court was organized and Jurors impanneled. *Albert Dole of this city*, was chosen foreman of the first Jury, *John Rigby, of Oldtown*, of the second and William S. Lee, of Howland, of the Grand Jury.

The docket was then called and opinions in the following cases heretofore argued on law were pronounced.

Nathaniel Treat vs Inhabitants of Orono—Plf nonsuit.

William Shimmin vs *John N. Inman*—Judgment on verdict for Plf.

Warren George vs James Stubbs. Exception sustained—new trial granted.

The case Nelson Webber et al vs. Penobscot Boom Corporation, having been settled, was dismissed.

The Semi Annual Convention of Unitarian Clergymen and Laymen was held in Philadelphia on Tuesday, the 20th instant, and closed its session on Thursday evening.

Sermons were preached by Rev. Mr Hall of Providence and Rev. Mr Hedge of Bangor.

The clerical and lay Delegates *were invited* by the members of the Unitarian Church to partake of a collation or tea party, which was given at the Assembly buildings, at the corner of tenth and Chestnut streets. About 400 ladies and gentlemen sat down to a table that was most tastefully decorated by the ladies. Grace was said by the Rev Dr Parkman, and after the removal of the cloth a number of interesting and eloquent speeches were delivered by many of the Reverend gentlemen who were present.

Several resolutions were discussed *during* the convention and upon one of the resolutions, Mrs Lucretia Mott who had been introduced to the convention, made a long and eloquent address.

☞The following is the return of votes in the three representative districts in this county, in which there was no choice on Monday last.

	Whig Dudley	Loco Hooper	Ab't Babcock	Ind Shaw	Scat
Hampden	143	191	73		3
Carmel	80	24	9	28	
	223	215	87	28	3
Brewer	142	90	35		6
Orrington	76	71	21		
	218	161	56		6
Exeter	121	140	41	22	2
Garland	32	54	45	3	
	153	184	86	25	2

☞A recent number of the London Morning Herald contains a most savage and highly labored article against O Connel, representing him as receiving enormous sums to spend upon his idle children and in wine and wassail while his own countrymen about him are dying of starvation in the ditch. He living in luxury while his nation stretches out its bare and skinny hands for crumbs of food, and he heeds her not. Many New Englanders in England are inclined to believe the general statements of the Herald.

French Language.

We invite the attention of the young masters and misses, as well as "children of a larger growth," of our city, to the advertisement of *Mademoiselle Myhan*, in another column. Mlle M comes to us with the highest recommendations from Boston and other sources, and is no doubt fully competent to teach the *French* language in the "pure Parisian accent."

☞Mr Brinkerhoff, member of Congress from Ohio speaks of the subject of the acquisition of California as slave or free territory, as one of the most important questions now before the country. He considers this question of free or slave territory as more deeply affecting the interests of future empires and unborn generations than any question ever before submitted to any people.

☞The want of water to carry paper mills has obliged us to use such paper as we could find in the market. Some of it has been rather poor, and all of it too small. It was the best we could do, for love or money. The late rains have *now* started the mills and we shall soon print upon good paper of suitable size.

☞A meeting of the Whigs of Henderson county Tennessee, was held at Lexington on the 5th instant, at which resolutions were adopted, expressing the preference of the meeting for John McLean, as President of the United States, and Willie P Mangum for Vice President.

☞The benevolent women in Portland are trying to relieve the *necessities* of the poor in that city. Their main effort now is to collect together all the partially worn cook stoves in town and have them put in order for the use of the poor. A capital idea this, which might be well followed in this city.

☞*From various statements* and rumors it is supposed that the loss of our troops in the engagement at Monterey is much larger than stated, some supposing the number to be as high as fifteen hundred. Much anxiety is felt to know the truth in regard to it, but the official roll of the dead has not been received.

The religious papers, generally, are engaged with great zeal upon the subjects of the Evangelical alliance, and also that of Polygamy among Indian and heathen converts. The hypothetical case proves to be the true state of the case.

☞Captain Beach of the schr H Plantagenet, says that the news of the battle of Monterey was known to Mexican citizens at Matamoras at least thirty six hours ahead of the United States express. The Mexican rider had ridden at such speed that his horse died on his arrival at Matamoras.

☞A cute yankee up in New Hampshire who loved his native town and who knew well the benefit of the people being employed, set up a stocking yarn factory and put *the* yarn out among the neighbors for them to knit. Thus he keeps himself busy, keeps his own little capital active keeps the women and girls busy—they all knit in the public lecture rooms and at parties, and all get a fair reward for their industry. This is a specimen of Yankeedom.

☞One cause of the prosperity of Dover village in Piscataquis county is said to be the liberal course pursued by the *original* owner of the soil. He treated all the settlers as friends and neighbors and instead of harrassing them with law suits he helped them out of their embarrassments and cheered them in difficulties and thus helped them and in this way best helped himself.

Thanksgiving.

The 26th of November is appointed for Thanksgiving Day in the following states besides Massachusetts—Maine, New Hampshire, Vermont Connecticut, Rhode Island, New York Pennsylvania, Maryland Ohio, Michigan.

☞It is estimated by the St Louis New Era that at least one thousand waggons of supplies will need to start every month from Fort Leavenworth in order to supply Gen Kearney's command in California.

☞Some of the St Louis papers have recently got up an official proclamation for Gen Kearney, calling upon the people to choose a congressional delegate and so forth.

☞A convention *of* liquor dealers were to assemble yesterday in Worcester, Mass, to consider the subject of the present license laws in that State.

☞We have received a *pamphlet* containing a sharp review of Dr Pond's work on Swedenborgianism. It may be found at the Bookstores in the city.

Baltus Stone, a revolutionary soldier, *died at* Philadelphia, on Thursday, aged one hundred and three years, and *sixteen days*.

☞The North Carolina Synod have decided that a man may marry his deceased wife's sister. To be sure he may, if she agrees to it.

From 60,000 to 70,000 quintals of fish were swept into the sea by the late storm in Newfoundland.

☞*A Tailor in Boston* has just invented a new style of top coat which has set the males of that city quite into their tip tops.

☞The work on the great aqueduct to supply Boston with pure water is progressing with great rapidity.

The Albany Evening Journal announces the accession to its editorial strength, of Geo Dawson, late of the Rochester Democrat.

☞William R Johnson, Locofoco, brother to Richard M Johnson, has been elected *to Congress* from Arkansas without opposition.

If you own a cow and have no suitable place for keeping her and nothing for her to eat—sell her.

☞It was too stormy yesterday to turn out and witness the opening of the Penobscot Bridge for public travel.

☞Put on your flannels and thus avoid many of the ill effects of sudden changes in the atmosphere.

☞Clothe your children in woolen garments with long sleeves, and thus secure to them health and security from fire.

☞A warm rain storm appeared here yesterday.

☞Crescent Division of the Sons of Temperance will meet this evening.

☞The Portland Company for erecting a large machine shop is going on prosperously.

☞They can't make the price of flour stick up in the flour markets.

☞There is a doctor in Boston giving free lectures on anatomy and physiology.

☞Potatoes from the West sell in Albany N Y at twenty five cents a bushel.

Scarcity of Grain in Germany.

The apprehensions of scarcity are not less serious than in France. In the northern States *rye* and potatoes, which constitute the principal food of the inhabitants, have completely failed. They will, of course, be obliged to make up the deficiency with wheat, the surplus of which is annually exported to the northern harbors of France. This accounts for the extraordinary rise of wheat on the shores of the Baltic, and the inability of the orders sent by French merchants to the markets of those countries. Southern Germany has, in its turn, become alarmed. The King of Wurtemberg, by an ordinance of the 14th ult, permitted the free importation of flour and foreign farinaceous productions until the 1st of May, 1847. In Bavaria, the wealthy inhabitants of Nuremberg have just founded an association for the supply of bread. This society, which has been authorized by the King will manufacture bread and sell it to the poor classes under the market price.

Horrible.

A correspondent of the St Louis Republican, writing from Camp Patterson near Burita, mentions the following incident:

A murmur of indignation was running through our lines to day in consequence of a scene of unusual interest which transpired here this morning.—An old squaw, from an encampment of Lipan Indians, about two miles below us on the *river*, to the camp of Texan Volunteers and offered for sale two Spanish girls from thirteen to fourteen years old. They were dreadfully emaciated and *almost* destitute of a single garment of clothing. The Texans seized the girls and squaw and carried them immediately to head quarters, *where upon examination* it was ascertained that the Lipans had murdered a whole family, the parents and brothers of the two girls *in the vicinity* of the Rio Grande, stolen all their property, and led the girls into captivity, there they had treated them with extreme *cruelty* and *nearly* starved them to death and were now offering them for sale. The girls readily pointed out the ringleaders of the outrage, and some *fifteen or twenty of them* were arrested for further investigation by order of Gen Wool.

Lieut. E. R. Price—his melancholy fate.

Intelligence was received at Natchez on Monday last, of the fate of Lieut Ezra R Price, who in company with two other United States Volunteers, had left Camargo some weeks since to join the command of General Taylor during his advance to Monterey. The informant states that the bodies of Mr Price and his two companions, were found lying in the grass, some distance from the road leading from Camargo to Monterey completely riddled with bullet *holes*. The bodies *of seventeen Mexican soldiers were lying scattered around them*.

Upon the disbanding of the Louisiana Volunteers, he determined still to devote himself to the cause of his country, and proceeded to Camargo for that purpose meeting the above untimely fate. As he and his two companions were armed with revolving pistols, it is supposed that they must have killed the *seventeen* Mexicans in a most desperate encounter.

[N O Tropic.

Strength of Monterey.

A correspondent of the Washington Union, writing from Monterey, says:

This place is so well fortified by nature and art, that *no force on earth can get it away from* the Americans. Breastworks of stone are thrown up across the streets, barricades of all descriptions placed in our advance. batteries taken from them on heights that, under ordinary circumstances, would so fatigue one hardly to walk up, that it seems almost incredible that it was done.

The New Planet, predicted by M Leverrier in so remarkable a manner from the perturbations of Herschel, and discovered by Mr Galle, at Berlin on the 23d of September was seen from the Cambridge Observatory on the evening of the 21st and 22d inst. It was found without much difficulty with the five feet Equatorial near the star 7,No 7646 of the British Association Catalogue. The planet bore illumination almost as well as the star, which is rated of the 7th Magnitude. The place of the planet on Oct 21st, was AR, 21h, 1 m, Dec 13 deg 33m South.

Locomotives.

Mr Septimus Norris (*of the celebrated firm* of Norris, Brothers, locomotive builders, Philadelphia) a practical and theoretical engineer, and a gentleman of high scientific attainments, has concluded a contract with the Atlantic and St Lawrence Railroad, for the supply of all locomotives, cars, castings and other machinery required for the full equipment of their road, the amount of the contract is not less than $750,000. The road is expected to be in successful operation through to Montreal by January 1, 1849.—[National Intelligencer.

From Washington.

The correspondent of the United States Gazette says:—

"It appears that the imputations cast on the conduct of Gen Butler, by the letters which appeared in the Union from some persons on the spot, have caused great excitement here.—Some of his friends are indignant because they view the *statements as impugning his courage*, while the true ground of the reported rebuke which he is said to have received from General Taylor, is his *rashness which induced him to* place his men in a position of unnecessary peril, by which the life of Colonel Watson was lost. How the matter stands will be determined by the official details of the battle which cannot long be delayed.

"Renewed efforts, and perhaps successful ones, are to be made to effect the removal of Mr Hagner, the third Auditor, and Mr Pleasanton, the fifth Auditor of the Treasury Department.

Tremendous Fire at Apalachicola.

On the 16th inst the city of Apalachicola *Florida*, was nearly laid in ruins by incendiaries. Three buildings were fired at the same time in their interiors. The fire first appeared on Commerce street, in R J Floyd's building, and burnt to Chesnut street and east to Simmons's corner, the whole square gone. In another place the fire burst out in the warehouse of B Ellison &Co and a whole block on water street consumed—twenty buildings, 10 of them *stores, consumed on water street, and the stocks* either consumed or much damaged.

☞The steamer Princeton arrived at Pensacola, from Chagres, on the 17th inst. She brings no news that has transpired.

There is no further news from Monterey to allay the great excitement in the public mind.

The Western mail brings no important intelligence.

☞The Albany Atlas says it has information from private sources entitled to belief, that no more troops will be called out, till the opening of Congress.

An auctioneer, speaking to a horse dealer about the situation of an estate he was to sell, in a level neighborhood, said—"That country is exceedingly beautiful, and I do so admire a *rich flat*." "So do I sir, said the grinning Jockey."

Within a few weeks, in removing some earth near the Willey house at the White mountains, the remains of one of the children were *found* who was buried in the fatal avalanche which swept away the Wiley family about twenty years ago.—Portsmouth Journal.

"Abernethy the celebrated surgeon, finding a large pile of paving stones opposite his door, swore lustily at the pavior, and desired him to remove them.

"Where shall I take them to?" asked the Hibernian.

"To Hell" cried the choleric surgeon.

Paddy looking up in his face with an arch grin, said, "hadn't I better take them to heaven' sure, they'd be more out of yer honor's way."

Instruction in French.

MADEMOISELLE MYHAN respectfully announces to the Ladies and [illegible] Bangor that she is prepared to receive applications for her services as teacher of the French language at Mr VALENTINE'S, on [illegible] street.

Mlle M flatters herself that [illegible] residence for some years at the celebrated establishment of the *Sacre Cœur*, at Paris, where no other language than French was used, either [illegible] study or relaxation will be a sufficient guarantee for her of the possession of a pure Parisian accent.

For her knowledge of the language [illegible] teaching and success with pupils she invites an inspection of her references in Boston, &c.

As Mlle M has under consideration several eligible applications from other quarters she would be particularly obliged to those who may desire to avail themselves of her services in Bangor, if they would apply as early as possible. She will be glad to be enabled to decide by the [illegible] whether it is *practicable for her to make* [illegible] arrangements at Bangor.

She is permitted to refer to Messrs [illegible] Hobbs and Geo B Moody.

The Howd Water Wheel.

Exeter, (N H,) Aug 6th 1845

Mr Cox—Dear Sir I feel much obliged to you for the information you have given me on the Howd Wheel as I find it is one of the best of Wheels It carries my Engines with less water than my Breast Wheel did and a great deal stronger

Respectfully yours,
ISAAC FLAGG

Vassalboro', Aug 12, 1845

Mr Johnson—Sir I send you this letter, because it shows a case where a Breast Wheel has been *taken out* and the HOWD WHEEL *put in* to do the same work and found to be much the best—The Breast Wheel was 14 feet long and 12 feet diameter, and well built, as says Mr Town the mill wright who did the work of putting in the Howd Wheel for Mr Flagg Yours &c

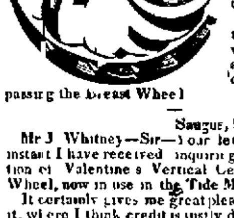
VALENTINE'S PATENT
REVERSING, CENTRIFUGAL
WATER-WHEEL.



The subscribers offer for sale the above WHEELS which are intended for upright or perpendicular Shafts and they refer to the annexed certificates to show *that this Wheel is superior* to some Wheels which have been advertised and certified as surpassing the Breast Wheel

—

Saugus, March 26 1845

Mr J Whitney—Sir—Your letter of the 24th instant I have received inquiring as to the operation of Valentine's Vertical Centrifugal Water Wheel, now in use in the Tide Mills at Saugus

It certainly gives me great pleasure to give credit, where I think credit is justly due I exchanged last November, as you know, one of the old fashioned tub wheels for one of Valentine's and, after four months' use of the same, I must say that it is one of the best wheels I ever saw

In the same Mills, at the same time, one of the Howd wheels was put in operation, but with all the commendation that the Howd Wheel has and indeed is worthy of, I must give the Valentine Wheel greatly the preference, and for these reasons—it costs far less, it vents less water, is less liable to damage will run more hours and with less head and is capable of doing more business

The Valentine Wheel as near as I can calculate, vents three fifths as much water as the Howd

Since the above wheel has been in operation I have seen ground into good meal forty bushels of corn per hour with one run of stones

Yours, with respect.
BENJ F NEWHALL

I have been engaged as Miller in the Tide Mills afore aid for eighteen years and I fully concur in the statements made by Mr Newhall
ISAAC COLLINS.

—

Portland, March 17, 1845

Mr Samuel Waite—Sir We have to say to you, and through you to Messrs Hinckley & Egery, Manufacturers, of Bangor, that the Valentine Wheel exceeds in power and general excellence any previous expectations we were willing to conceive of it, from your representations, before we tried it in our new Paper Mill The 5½ feet diameter wheel, with our head of water, which is 14 feet, moves our four engines which are of the largest size, with the theoretical discharge of 250 square inches of water

In short, we most heartily recommend the Valentine Water Wheel as possessing or combining more of the requisite qualities of the very best Water Wheel, than any other known to us We invite those interested in the matter to visit our new Paper Mill at Cogin, five miles from Portland, Me

Respectfully yours

VALENTINE'S WATER WHEEL
[To the Editor of the Whig and Courier]

Milo, April 29, 1845

I have lately purchased of Messrs Hinckley & Egery, one of Valentine's Patent Reacting Water Wheels which has been put in operation by Mr David M'Clench, an experienced Mill wright of this town, for propelling machinery in the Woollen Factory The wheel so far excels our expectation that I consider it an act of justice to the proprietors to recommend the Wheel to persons building Factories or other Mills, as being superior to any other Wheel with which I am acquainted The Wheel is 5½ feet in diameter, and the head of water is 4 feet This drives one set of Woollen Machinery with fulling mill and picker The power is very near three times as much power as the 11 feet Tub Wheel which we have used heretofore The Wheel is not obstructed by back water, and goes sufficiently steady without the aid of a regulator—Persons interested in Water Wheels are invited to call at the Factory and examine for themselves
J W CUSHING

—

The undersigned confidentially recommend this Wheel to the owners and operators of Manufactories, Mills, and Machinery as excelling any Wheel in use, for power durability, simplicity and economy HINCKLEY & EGERY

TESTIMONY!

Bangor Oct 5th, 1846

MESSRS HALL & YOUNG—
Gentlemen

A few weeks since I called at your shop and bought one bottle of Dr Jackson's Pile Embrocation As I then bought with considerable hesitation not knowing but what it was more of a humbug than any thing else I deem it my duty as one dreadful sufferer, relieved, and finally cured by its use, to inform you in a public manner of my entire approbation of the medicine, and sincerely hope that others may be induced to purchase it under similar circumstances A good application for the Piles has long been a desideratum, and I have never met with any thing so remarkable in its curative properties, as the above medicine procured of you

CONSUMPTION CURED!

BUCHAN'S HUNGARIAN BALSAM OF LIFE.

THE

GREAT ENGLISH REMEDY

For Colds, Coughs, Asthma, and other Diseases of the CHEST and LUNGS.

BUCHAN'S HUNGARIAN BALSAM the Great English Remedy for Pectoral and Pulmonary diseases, still stands unrivalled and unsurpassed as the most elegant, agreeable, and effectual curative of these formidable complaints, now known to the civilized world

Three years of trial in the United States during which time it has been distributed from Maine to Florida, has only served to establish its pre eminent merit in all parts of the country as the great and

ONLY RELIABLE REMEDY

in the worst cases of Pulmonary disease, and the best and most agreeable curative of all the slight forms of colds, cough and inflammation, that can possibly be used

SPITTING OF BLOOD! This frightful symptom of approaching Consumption, is speedily checked and prevented by the use of Buchan's Hungarian Balsam which heals the affected membrane, removes the incipient tubercles, and restores those vital organs, the lungs, to a sound and healthy condition

REMEMBER THIS Spitting of Blood always arises from a tendency to Tuberculous disease and if not checked, at the outset will sooner or later determine in death A person who raises blood once will raise blood again, unless a proper curative is immediately employed!

PAIN IN THE SIDE! This distressing symptom of Consumption arises from inflammation of the Lungs, or the Membrane called the Pleura, or from *Bronchial* affection of the air passages In either case it is a very dangerous location of disease It prevents full and free breathing and wears away the natural strength of the system The cause of this symptom should be removed at once, and nothing can possibly effect that object so speedily and happily as the Great English Remedy, discovered by Dr Buchan which is entirely vegetable in its ingredients, and perfectly harmless in all its qualities

LIVER COMPLAINT In cases of Consumption the Liver is always more or less affected, and also the Spleen, Pleura, and small intestines On dissecting Consumptive patients, Tubercles are often found in all those organs, particularly upon the Liver, which also becomes fatty, oily and swelled The effect of the Hungarian *Balsam* in diseases of the Liver, especially if it be of an ulcerous nature is direct and powerful *Simple disease of the Liver, unattended by Consumption is speedily cured by its use*

WINTER COUGH The harsh, dry, hacking winter cough which *afflicts old people*, and invalids in a low state of health is happily affected by the *Hungarian Balsam*

It warms, moistens, and stimulates the whole breathing apparatus, removes all morbid mucus and other foul matter, purifies and animates the blood, improves the secretive power of the Liver, Spleen, and other large glands, and the digestive organs, and imparts new life to the wan and emaciated system

BRONCHITIS Bronchitis, Difficulty of Breathing, Harsh Cough, a slimy expectoration, with all other symptoms caused by an affection of the air tubes leading from the throat to the lungs, are directly and specifically cured by the use of the admirable remedy invented by *Dr Buchan*

This is a very painful, wearing and injurious complaint, and always has a powerful tendency to inflame and soften the Lungs, and thereby to induce the worst form of Pulmonary disease Be warned in time, ye afflicted! and employ this valuable remedy

TUBERCLES ON THE LUNGS! The Hungarian Balsam is the only popular remedy which has any power to dissolve, remove, and cure Tubercles on the Lungs Incredible as this is generally esteemed, we have the most abundant and conclusive evidence to sustain the assertion that such is its direct and immediate effect, in all cases where there is no natural organic defect In fact, so confident is the American Agent of its power to cure the worst form of this disease that he prefers, (as he has frequently stated,) that it should be used by invalids who have been *PRONOUNCED INCURABLE* by the most eminent physicians, rather than by persons affected with some slighter form of disease—in order that its triumphs might be more apparent He boldly declares that it will cure Tuberculous disease, and confidently solicits a trial in the *worst of cases*

EXPECTORATION Free Expectoration is the most important object to be attained in all attempts to cure diseases of the Chest and Lungs The Cough, which is so distressing is simply the result of a desire to expectorate, and as long as foul matter exists in the air passage, it will continue to irritate the membrane and provoke a cough Coughing is an attempt to throw off this matter, and expectoration gives great relief Inability to expectorate in the latter stages of Consumption is the cause of death

The Hungarian Balsam is a *great Expectorant*—It dissolves the morbid and diseased matter in the air passage, changes it from a thick, glutinous substance, to a thin harmless fluid, and throws it off with the greatest possible ease and comfort to the patient There is no better medicine in the world, if its expectorant quality alone be considered

SPASMODIC ASTHMA Simple or Spasmodic Asthma, has no better remedy than the Hungarian Balsam This painful and destructive affection which resists almost every thing else, yields to the all powerful influence of this great remedy, as readily as any other form of Pectoral disease

CONSUMPTION! Consumption has been graphically described as a "*Shrinking of one's self*" The Hungarian Balsam by its cleansing warming, softening and animating power, produces, not shrinking but *expansion*!

Before its delightful influence, all chills, fever, night sweats, costiveness, blueness of the nails a hot flushed skin, an uncertain strength, emaciation and decline—disappear, like the poisonous dews of night before the glorious morning sun This is no delusion, but demonstrable fact, sustained by incontestible proof, from all parts of the country

BE WISE TO DAY! Delay in any case of Consumptive tendency, is emphatically Death, under all ordinary treatment The Hungarian Balsam is a great ANTIDOTE, as well as CURATIVE If you have any symptoms above described, be advised in time

Sold in large bottles at only one dollar per bottle

CONSUMPTION,

AND the best medicine known to man for Asthma of every stage Liver Complaints, Bronchitis Influenza Coughs, Colds, Bleeding of the Lungs, shortness of Breath pains and weakness in the side, breast, &c and all other diseases of the

PULMONARY ORGANS.

A very important disease over which this 'Balsam' exerts a very powerful influence is that of a

DISEASED LIVER.

In this complaint it has undoubtedly proved more efficacious than any remedy hitherto employed and in numerous instances when patients had endured long and severe suffering from the disease without receiving the least benefit from various remedies, and when MERCURY has been resorted to in vain the use of this Balsam has restored the LIVER to a healthy action, and in many instances effected

PERMANENT CURES,

after every known remedy had failed to produce this desired effect

Opinion of a Regular Physician.

Exeter, Me, Sept 30 1845

This certifies that I have recommended the use of Wistar's Balsam of Wild Cherry for diseases of the Lungs for two years past, and many bottles to my knowledge have been used by my patients all with beneficial results In two cases where it was thought confirmed consumption had taken place, the Wild Cherry effected a cure

BEWARE OF COUNTERFEITS AND IMITATIONS The unparalleled and astonishing efficacy of Dr Wistar's Balsam of Wild Cherry in all the diseases for which it is recommended, curing many cases after the skill of the best physicians was unavailing, has effected a large and increasing demand for it This fact has caused several unprincipled counterfeiters and imitators to palm off a spurious mixture, of similar name and appearance, for the genuine Balsam

The Sugar-Coated Pills.

A NEW SARSAPARILLA PREPARATION.

To cure Diseases, Purify the Blood! To avoid them, keep it pure!!

That PREDISPOSITION which exposes the human frame to the infection and virulence of every class of disorders proceeds directly or indirectly, from a morbid state of the system caused by

IMPURE BLOOD.

HALSEY'S SUGAR COATED MAGIC LIFE PILLS The originator of the only true and genuine Sugar coated Pills most respectfully informs the enlightened public that this new and elegant preparation can be obtained only from advertised agents and at the proprietor's establishment No 523 Broadway, N York—Price 25 cents a single box 5 boxes for one dollar

G W LADD Agent for Bangor

Among the numerous remedies which stand reputable on the basis of an ancient name, are none perhaps which have acquired so great celebrity, and extensive use in so short a time as this invaluable article—They have gained their high reputation, alone by their good works Those who once try them, always use them again They are grateful to the stomach,—they improve the functions of secretion nutrition and circulation They restore digestion and appetite and create a natural warmth inwardly, which glows through the whole system, giving it greater vitality and animation The experience of thousands attest to their good effects After using them for a short time the hitherto wretched invalid finds that all disagreeable and unhealthy humors have forsaken his system His digestive organs perform their proper functions, his blood regains its wonted purity the oppressive sense of weakness and pain departs, and his body becomes endowed with renewed strength and vigor—while the mind resumes its original vivacity and clearness Such are the results produced by Halsey's Sugar coated Pills the mildest, yet most effectual preparation of the class in use

In BILLIOUS complaints Costiveness, Indigestion, Dyspepsy and all other disorders of the stomach they produce the most happy results For Sores, Boils Saltrheum, Tetter, Erysipelas, Eruptions of the Skin Scrofulous complaints and many other like diseases arising from IMPURE BLOOD they have become highly celebrated Hundreds of certificates have been received from individuals who after having taken them for a few weeks, (according to the directions which accompany the box) were cured of the most afflicting cases of *scrofulous affections* They give *Good Blood for Bad* Bottles of the boasted Sarsaparillas contain less of the true virtues of that valuable plant and are less effectual than a single box of these extraordinary Pills In Colds Coughs, Influenza, Sore Throat Headache, Giddiness &c, they are recommended with entire confidence the relief in these cases is quick and permanent For Fever and Ague, Fevers Asthma, Piles, Loss of Appetite, Dropsy, Jaundice Worms, Looseness General Debility, and many of the various other diseases to which the human system is liable they have proved an infallible remedy Their action on the bowels is of the mildest character even *over doses* never cause griping or unpleasantness yet they are searching and efficient It is impossible by words to give an adequate idea of the great and good effects these pills produce and their superiority over every other remedy of a similar class, a trial only will explain the wide difference The unhappy invalid after having *tested* but a *single box* of them will with joy for the unexampled change wrought in his health bear testimony to their uncommon virtues

N B The *coating* of *sugar* adds nothing to the great virtues of the Magic Life Pills, it is their uncommon powers in promoting health, on which all their merits stand, notwithstanding this they are the original sugar coated pills The proprietor made this valuable improvement to preserve their curative virtues entire as well as to render them pleasant to the taste, yet individuals of no integrity have counterfeited other pills coated them, and through the base and silly pretension to a patent are distributing them about the country, deceiving the public by disposing of them unjustly through the already acquired reputation and popularity of the genuine *Halsey's Sugar coated Pills* In order to get the true and original sugar coated pills, see that the engraved signature (G W Halsey) is on the label of each box, and buy only of advertised agents

DR. UPHAM'S
Vegetable Internal Remedy
FOR THE PILES!
☞ A Cure for Life Secured. ☜

For the cure of Piles, Inflammation of the Liver and Spleen, Inflammation, Soreness and Ulceration of the Stomach, Bowels Kidneys and Bladder Inflammatory and Mercurial Rheumatism Impurity of Blood Weakness and Inflammation of the Spine and for the relief of Married Ladies

THE VEGETABLE PILE ELECTUARY Invented by Dr A Upham, a distinguished physician of New York city, is the only really successful remedy for that dangerous and distressing complaint, the Piles, ever offered to the American public

Mark this it is an INTERNAL REMEDY—not an external application and will cure any case of Piles either Bleeding or Blind Internal or External and probably the only thing that will! There is no mistake about it It is a positive cure speedy and permanent It is also a convenient medicine to take, and improves the general health in a remarkable manner

Each box contains twelve doses at 8 1 3 cts per dose It is very mild in its operation and may be taken in cases of the most acute inflammation without danger All external applications are in the highest degree disagreeable inconvenient, and offensive, and from the very nature of the disease, temporary in their effects This Medicine attacks the disease at its source and removing the cause renders the cure *certain and permanent*

INFLAMMATORY DISEASES—Although the *Electuary* was originally prepared for the cure of PILES, yet it has proved itself to be a medicine far superior to all others, in all diseases of an Inflammatory character, with a determination of blood to any particular part or organ In Inflammation and Congestion of the Liver and Spleen, Inflammation Soreness and Ulceration of the Stomach, Bowels, Kidneys, and Bladder, in Inflammatory and Mercurial Rheumatism, it is the best Medicine ever discovered

IMPURITIES OF THE BLOOD—For all Impurities of the blood arising from the imprudent use of mercury, or other causes, for all Diseases of the Skin and Scrofulous Affections, in all cases where the blood is powerfully determined to the Head, producing dizziness and distress, Dr Upham's Electuary is entirely unrivaled

TO MARRIED LADIES—Married Ladies are almost invariably subject to that painful and injurious disease, the PILES, with consequent Inflammation of the stomach, bowels and spine, weakness of the back, flow of blood to the head &c The Electuary is perfectly safe for Pregnant Ladies, and the most useful Cathartic that can possibly be used, as it will not only remove the Piles and all inflammatory diseases, *without pain or irritation*, but will ensure an easy time, a safe delivery and a sound constitution in the offspring

CURE FOR THE PILES GUARANTIED—The Electuary contains no mineral medicine, no Aloes Colocynth, Gamboge, or other powerful and irritating Purgative No fear of taking cold while under its influence, no change, in diet is necessary If taken according to the directions, *A cure for Life is Guarantied*
